

## **PSU - Society for Women Engineers**

Introduce a Girl to Engineering Day
February 23rd, 9:00 am -11:30 am

"Introduce a Girl to Engineering Day" is a national observance dedicated to promoting interest in STEM fields. PSU SWE will be hosting 20 high school girls at the PSU Engineering Building for a morning of fun, education, and sharing experiences.

If you are a female junior or senior and are interested or curious about careers in engineering this is a great opportunity to meet with current college students and local professionals from the field.
